CONTENTS OF VOLUME 17

NUMBER 1

E. Broch, C. Rogers, R. Sterling and J. Zhao	1	Editorial
W.-I Chou and A. Bobet	3	Predictions of ground deformations in shallow tunnels in clay
P.P. Oreste	21	The importance of longitudinal stress effects on the static conditions of the final lining of a tunnel
F. Tonon, A. Mammino and A. Bernardini	33	Multiobjective optimization under uncertainty in tunneling: application to the design of tunnel support / reinforcement with case histories
H.-S. Chung, and I.-M. Lee	55	Tunneling and underground-structure projects in Korea: general report
F. Jeng, M.-L. Lin and S.-C. Yuan	69	Performance of toughness indices for steel fiber reinforced shotcrete
Trenchless Technology Research		
A.-L. Pellet-Beaucour and R. Kastner	83	Experimental and analytical study of friction forces during microtunneling operations
C.D.F. Rogers, D.N. Chapman, F. Wan, P.C.F. Ng and S. Smith	99	Laboratory testing of pipe splitting operations

NUMBER 2

A. Haack	115	Invited Editorial
A. Haack	117	Current safety issues in traffic tunnels ō
C.J. Kirkland	129	The fire in the Channel Tunnel ō
K. Bryant	133	Who are you designing your tunnel for? ō
D. Gabay	139	Fire safety: a short history in the Paris subway ō
H. Mashimo	145	State of the road tunnel safety technology in Japan ō
F. Vuilleumier, A. Weatherill and B. Crausaz	153	Safety aspects of railway and road tunnel: example of the Lötschberg railway tunnel and Mont-Blanc road tunnel ō
A.G. Bendelius	159	Tunnel fire and life safety within the world road association (PIARC) ō
A. Nordmark	163	Overview on survey of water installations underground: underground water-conveyance and storage facilities ō
G.L. Tan	179	Fire fighting in tunnels
S.-H. Park and T. Adachi	181	Laboratory model tests and FE analyses on tunneling in the unconsolidated ground with inclined layers

CONTENTS OF VOLUME 17

K.D. Panou and A.I. Sofianos	195	A fuzzy multicriteria evaluation system for the assessment of tunnels vis-à-vis surface roads: theoretical aspects—part I
K.D. Panou and A.I. Sofianos	209	A fuzzy multicriteria evaluation system for the assessment of tunnels vis-à-vis surface roads: the WPMA case—part II
Discussion Papers		
N. Barton	221	Deformation moduli and rock mass characterization
R. Singh and A. Palmstrom	223	Response to Dr Nick Barton's comments to our paper on deformation modulus of rock masses in Vol. 16, 2001, pp. 115–13

NUMBER 3

J. Toraño Álverez, R. Rodríguez Díez, A. Cuesta Gutiérrez and I. Diego Álvarez	227	A computer program for calculating ventilation in tunnelling works based on an explicit method
N. Bilgin, T. Dincer and H. Copur	237	The performance prediction of impact hammers from Schmidt hammer rebound values in Istanbul metro tunnel drivages
Z. Huang, E. Broch and M. Lu	249	Cavern roof stability—mechanism of arching and stabilization by rockbolting
F.-S. Jeng, M.-C. Weng, T.-H. Huang and M.-L. Lin	263	Deformational characteristics of weak sandstone and impact to tunnel deformation
C. Atilla Öztürk and E. Nasuf	275	Geostatistical assessment of rock zones for tunneling
M. Eriksson	287	Grouting field experiment at the Äspö Hard Rock Laboratory
M.E.A. El Salam	295	Construction of underground works and tunnels in ancient Egypt
E. Broch, E. Grøv and K.I. Davik	305	The inner lining system in Norwegian traffic tunnels
X. Zhang, Y. Lai, W. Yu and S. Zhang	315	Non-linear analysis for the freezing–thawing situation of the rock surrounding the tunnel in cold regions under the conditions of different construction seasons, initial temperatures and insulations
Trenchless Technology Research		
R. Nassar and M. Yousef	327	Analysis of creep failure times of cured-in-place pipe rehabilitation liners

NUMBER 4

	333	Publisher's note
D. Piela and S. Pelizza	335	Criteria for technical and environmental design of tunnel portals
R. Glamheden and U. Lindblom	341	Thermal and mechanical behaviour of refrigerated caverns in hard rock

CONTENTS OF VOLUME 17

A. Kılıc, E. Yasar and A.G. Celik	355	Effect of grout properties on the pull-out load capacity of fully grouted rock bolt
A.S. Elkadi and M. Huisman	363	3D-GSIS geotechnical modelling of tunnel intersection in soft ground: the Second Heinenoord Tunnel, Netherlands
S. Akbulut and A. Saglamer	371	Estimating the groutability of granular soils: a new approach
Y.J. Shang, J.G. Cai, W.D. Hao, X.Y. Wu and S.H. Li	381	Intelligent back analysis of displacements using precedent type analysis for tunneling
S.Y. Choi and H.D. Park	391	Comparison among different criteria of RMR and Q-system for rock mass classification for tunnelling in Korea
K.H. Holmøy and B. Aagaard	403	Spiling bolts and reinforced ribs of sprayed concrete replace concrete lining
E. Boidy, A. Bouvard and F. Pellet	415	Back analysis of time-dependent behaviour of a test gallery in claystone
T.T. Wang and T.H. Huang	425	An experience of tunnelling in mudstone area in southwestern Taiwan
	437	Erratum to "Issue 17/2 (2002) 179–225"
